

Case Statistics At-A-Glance 1999-May 2024

- **Respondents:** Complainants often name more than one type of respondent.

TYPE OF RESPONDENT NAMED	PERCENTAGE OF CASES IN WHICH RESPONDENT TYPE IS NAMED
Prosecutor	60%
Law Enforcement	39%
Judge	13%
State agency or other public agency such as human services, county board, school, etc.)	11%
County Victim Witness Office	7%

- **Probable Cause (pending cases excluded)**

Complaints often contain more than one allegation. The Board makes a probable cause decision on each allegation contained in a complaint.

- Probable cause was found to exist for at least one allegation in 48% of complaints filed.
- In 38% of all cases, at least one allegation was dismissed for lack of probable cause.
- In 14% of cases, there was no probable cause decision, for several reasons, including the complaint being withdrawn or administratively closed for jurisdictional reasons.

- **Investigations & Hearings (pending cases excluded)**

When probable cause is found, it is far more common for the Board to conduct an investigation without holding an evidentiary hearing. The Board has held evidentiary hearings in 23% of the cases in which probable cause was found and conducted investigations in 82% of cases in which probable cause was found.

- **Remedies (pending cases excluded):** The Board sought equitable relief in two cases. It has issued 18 private reprimands and 40 Reports and Recommendations.
- **Judicial Appeals (pending cases excluded):** To date, there have been 2 cases reversed on judicial review and 4 cases affirmed by judicial review.
