NEWS FOR IMMEDIATE RELEASE

October 21, 2025

Drug Take Back Day is October 25

MADISON, Wis. – The Wisconsin Department of Justice (DOJ) today announced that this upcoming Saturday, Oct. 25, 2025 is National Drug Take Back Day. More than 145 events with more than 266 participating law enforcement agencies are planned across Wisconsin on Saturday, where Wisconsinites are encouraged to dispose of unwanted and unused medications.

“Disposing of your unused and unwanted prescription and over-the-counter medications should be simple,” said Attorney General Josh Kaul. “In Wisconsin, you can do so not only at an event on a Drug Back Day, but also at one of the hundreds of permanent drug disposal boxes across the state.”

Drug Take Back Day provides a safe, convenient, and responsible means of disposal, while also educating the community about the potential abuse and consequences of improper storage and disposal of these medications.

To find a Drug Take Back location near you, go to: <https://www.dhs.wisconsin.gov/opioids/drug-take-back-day.htm>.

Unused or expired medicine should never be flushed or poured down the drain. Water reclamation facilities are not designed to remove all pharmaceuticals, and trace amounts are showing up in rivers and lakes.

To ensure the success of Drug Take Back Day, Wisconsin DOJ relies on assistance from the DEA, and the generous support of Fuchs Trucking, Reworld, the Wisconsin State Patrol, Wisconsin Department of Health Services, Wisconsin Department of

Military Affairs, the Indiana State Police, Waukesha County, Waukesha County Sheriff's Office, and all participating local law enforcement agencies.

GUIDELINES:

All waste pharmaceuticals must be generated by a household – no businesses are allowed.

Bring: Prescription (controlled and non-controlled) and over-the-counter medications, ointments, patches, inhalers, non-aerosol sprays, creams, vials and pet medications. Vape pens or other e-cigarette devices (batteries removed).

Do Not Bring: Illegal drugs, needles/sharps, acids, aerosol cans, bio-hazardous materials (anything containing a bodily fluid or blood), personal care products (shampoo, soaps, lotions, sunscreens), household hazardous waste (paint, pesticides, oil, gas), mercury thermometers.

Participants may dispose of solid, non-liquid medication(s) by removing the label or blacking out personal information on the label of the plastic pill container or by putting the medication into a clear sealable plastic bag. Blister packages without the medications being removed are also acceptable.

Liquids will be accepted during this initiative. However, the liquids, creams and sprays must be in their original packaging. Liquids without the original packaging will not be accepted.

Illicit substances such as marijuana or methamphetamine are not a part of this initiative and should not be placed in collection containers.
